

Ambassador Rulebook V2

Meeting Date: [2026/5/11]

Attendees: Kenny (RedotPay), [Youthfxone] (Media Partner)

Phase 1 Testing Budget: \$1,000 - \$1,500 USDT

Target card activations: 200-300 virtual cards (\$5 for each card)

1. KPIs & Deliverable Scope

- **Core Metric:** The only performance metric we track for this campaign is **Card Activations**.
(Only New user card activations count)
- **Conversion Weight:** 1 Physical Card activation equals 10 Virtual Card activations.
- **Performance Benchmark:** Based on a 30-day tracking window. For example, if we allocate a \$150 upfront payment for a creator, the 30-day baseline expectation is **15 virtual card activations** (or equivalent physical cards).
- **Scope of Deliverables:** Any agreed payment covers a full promotional package across all the creator's platforms (e.g., Main Video + Telegram Groups + IG Stories), not just a single video post.

2. Transparent Tracking System

- **Shared Dashboard:** We will set up a Shared Google Sheet for daily and real-time tracking.
- **UID Tracking:** Activations will be precisely tracked using User UIDs. Both parties will have a clear, transparent view of every single creator's performance, ensuring seamless alignment.

3. Media Kit & Promo Codes

- **Continuously Updated Assets:** We will provide a Google Doc/Drive containing brand guidelines, tutorial videos, and high-quality image/video assets. We will continuously update this folder so your creators always have fresh materials.
- **Exclusive Promo:** We will generate an exclusive **20% OFF Promo Code** for each confirmed creator to share with their audience, significantly boosting conversion rates.
- **Incentive Campaign:** There are monthly campaigns that all KOLs can join.

4. Strict Compliance Guidelines

- **No Official Tax Advice:** RedotPay operates strictly within regulatory frameworks. We **CANNOT** officially claim that our card is designed to "bypass TCS/taxes."
- **Creator's Personal Opinion:** Any mention of avoiding high banking fees or tax limits must be presented strictly as the **creator's personal opinion and personal use case**. The content should remain performance-oriented and user-value-driven. They should read the guidelines before promoting RedotPay.

5. Communication & Daily Updates

- **Telegram Workflow:** We will establish a fast workflow on Telegram. We can set up one main management group, and/or individual 3-way chats (You, Me, Creator) for direct alignment and efficient communication.
- **T-1 Data Updates:** To keep the momentum high, I will update the performance data (T-1 / yesterday's results) in the shared sheet **every day**.

Here is the updated meeting summary with the new **Payment & Approval Process** seamlessly integrated and professionally formatted:

Meeting Details

- **Date:** May 11, 2026
- **Attendees:** Kenny (RedotPay), [Youthfxone] (Media Partner)
- **Phase 1 Testing Budget:** \$1,000 - \$1,500 USDT
- **Target Card Activations:** 200 - 300 virtual cards (\$5 for each card)

KPIs & Deliverable Scope

- **Core Metric:** The only performance metric we track for this campaign is **Card Activations**.
(Note: Only new user card activations count.)
- **Conversion Weight:** 1 Physical Card activation equals 10 Virtual Card activations.
- **Performance Benchmark:** Based on a 30-day tracking window. For example, if we allocate a \$150 upfront payment for a creator, the 30-day baseline expectation is **15 virtual card activations** (or equivalent physical cards).
- **Scope of Deliverables:** Any agreed payment covers a full promotional package across all the creator's platforms (e.g., Main Video + Telegram Groups + IG Stories), not just a single video post.

Payment & Approval Process

- **Step 1: Account Review:** The creator's social media accounts must pass our initial review process.
- **Step 2: Draft Submission:** Creators must submit their content drafts for review and approval prior to posting.
- **Step 3: Payment Processing Schedule:** Once the content is posted, the payout workflow is initiated.
 - Payments are processed mainly on **Mondays** or **Wednesdays**.
 - If the payment workflow is initiated before or on Wednesday, the funds will be disbursed within the **same week**.
 - If missed, the payment cycle will automatically be delayed to the **following week**.
