

KOL Expansion Ambassador Program

We are thrilled to launch the **KOL Expansion Ambassador Program**, designed to accelerate card activation through the power of influencer networks. This incentive structure is built to stack on top of your existing Tier 2 referral commissions, rewarding you for expanding our reach and driving growth.

Program Objectives

Our core mission is to leverage your network to introduce high-quality KOLs, fostering a robust ecosystem for RedotPay:

- 1. Win-Win Ecosystem:** When your referred KOLs join and drive card activations within their communities, you earn doubled Tier 2 commissions with no cumulative caps.
- 2. Market Expansion:** Rapidly scale our KOL network and increase our influencer footprint.
- 3. Long-term Value:** This is more than a one-time reward; it is a commitment to building a sustainable and profitable KOL network.

Trigger Conditions

The reward is triggered when a referred KOL registers as a promotional partner and generates a **total Tier 2 commission of over 100 USD** within a single calendar month.

Reward Details

Upon meeting the criteria, the Referring Ambassador will receive a **Double Reward** on that specific KOL's Tier 2 commissions for that month.

Scope

Applies to both **Virtual Card** and **Physical Card** transaction volumes.

Important Notes

- This incentive is **fully stackable** with existing Tier 2 referral rewards.
- There is **no limit** to the total cumulative rewards you can earn.
- This is a **long-term incentive program**. The company reserves the right to the final interpretation and adjustment of program details.

Eligibility & Calculation

- Once a referred KOL's monthly Tier 2 commission exceeds 100 USD, the reward will be issued following a manual review.

- If the monthly Tier 2 commission total is below 100 USD, it will not qualify for the bonus that month; however, the partner remains eligible to participate in the following month.

Settlement Cycle

The settlement cycle runs from **00:00 on the 1st of each month to 23:59 on the last day of the month**. Reconciliation and bonus distribution will take place at the start of each month.

Expected Impact

We anticipate onboarding 5–10 new KOLs within the first month, driving an estimated 100–200 new card activations.
