

How to Buy Crypto via P2P on RedotPay

Step 1 — Find the P2P Marketplace in the App

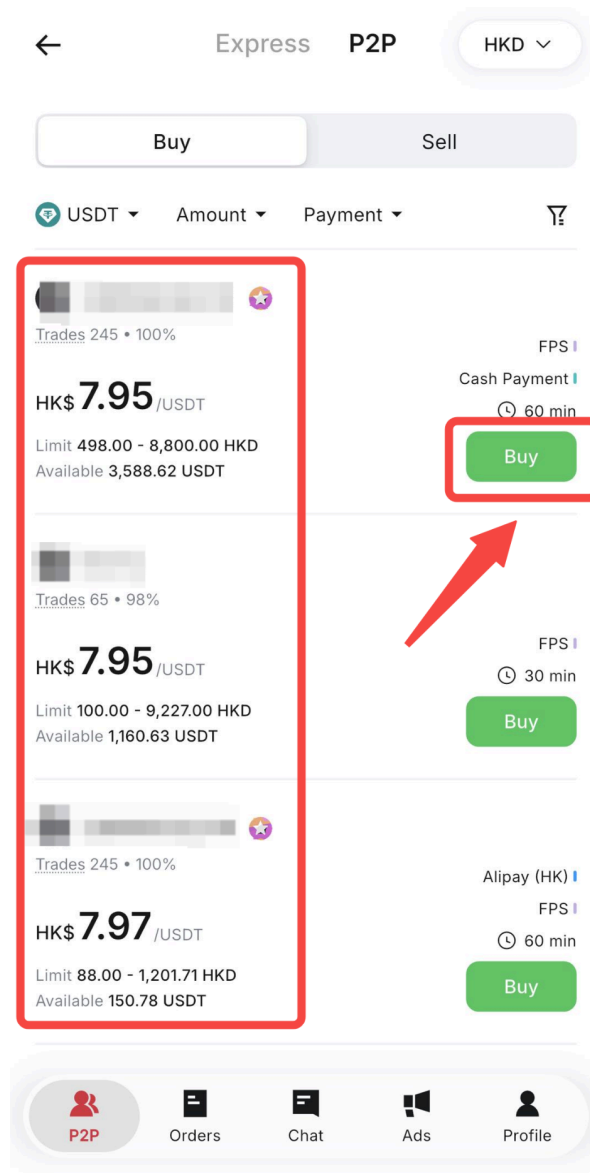

Open the RedotPay APP and tap **P2P Marketplace** in the App.

Step 2 — Select Currency

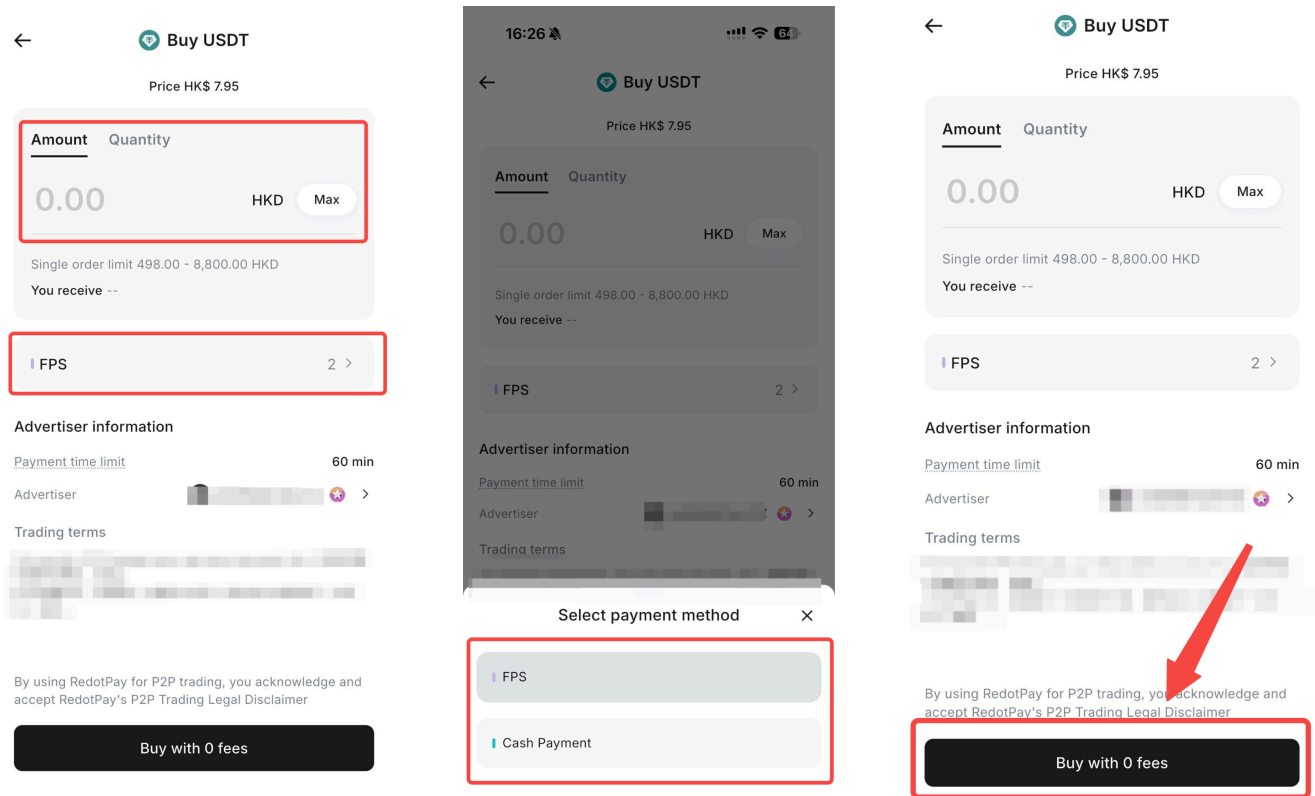

Select the **Buy** tab, then tap the top-right button to choose the currency.

Step 3 — Choose a Merchant and Start P2P transaction

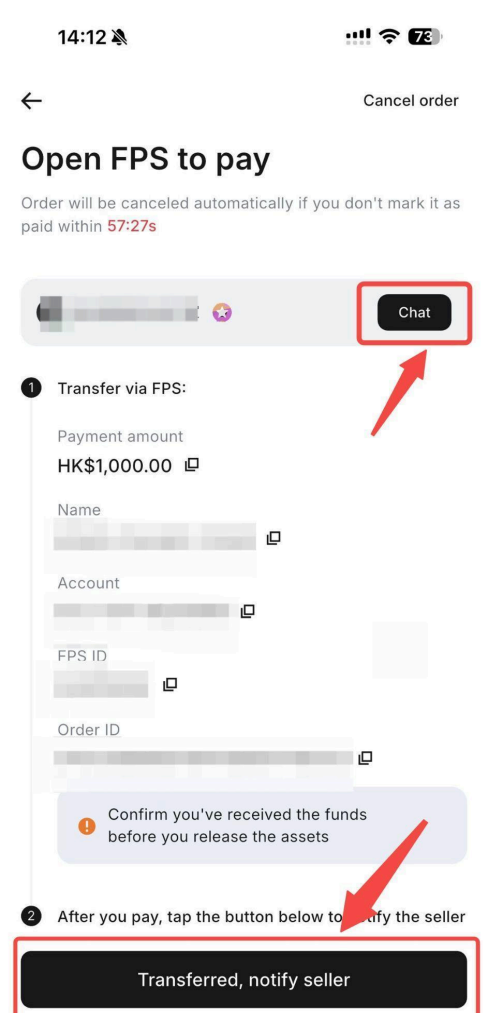

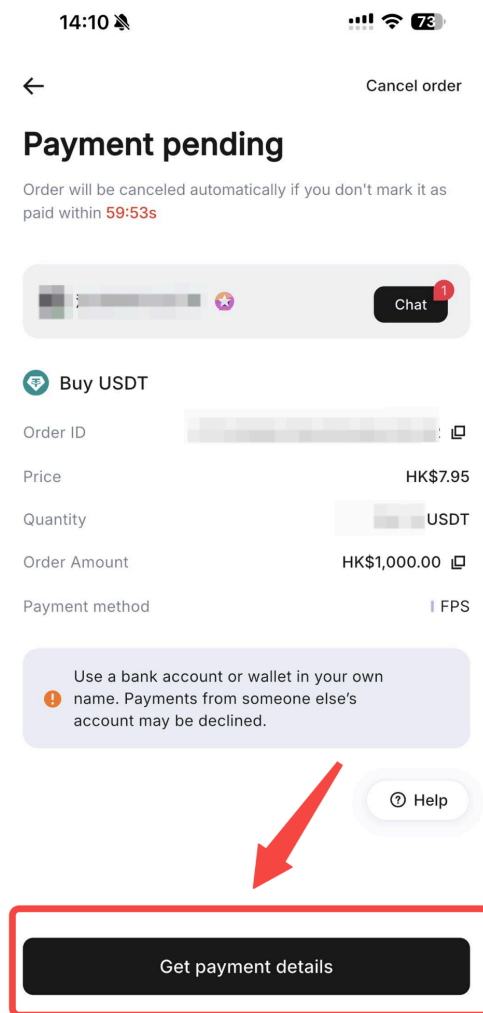

Pick a merchant and select **Buy** to purchase crypto from a merchant

Step 5 — Create an order

Enter the amount of fiat or crypto you want to buy, select your payment method, then tap the “Buy with 0 fees” button below to place the order.

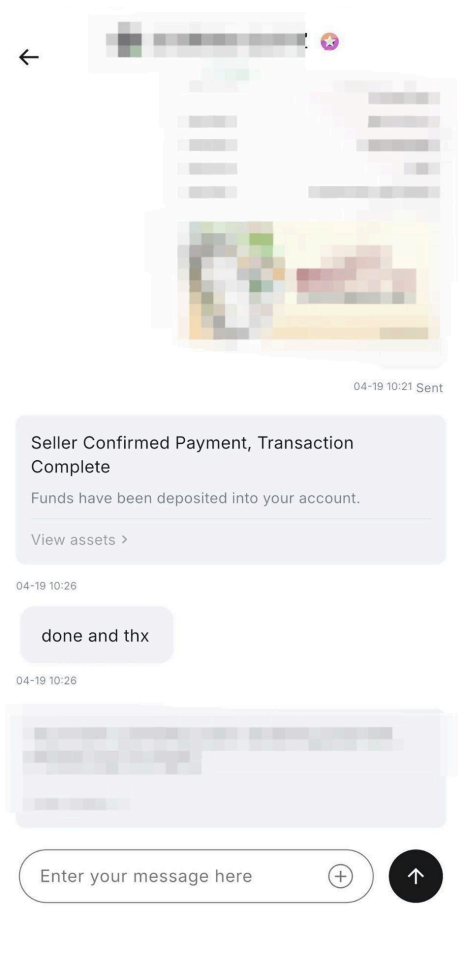

Step 6 — Make the Payment to Complete the Transaction

After creating the order, tap “Get payment details” and complete the payment using the provided payment information.

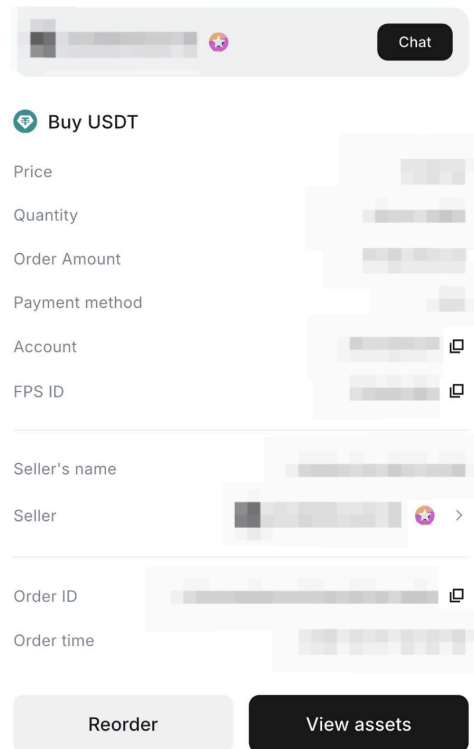

Once the payment is completed, tap “Transferred, notify the seller”.

Then open the chat and send your payment proof to the seller.
Wait for the seller to confirm the payment and release the crypto to your account.

Transaction completed

Your crypto has been added to your account. You can now move it to your funding account to spend

Once the seller releases the crypto, the order will be completed and you can check your balance in the RedotPay app.
