Recommended Video Order

1. Local payment pain points
2. Quick introduction to RedotPay
3. Registration, card activation, top-up, card purchase, and usage overview, with a strong focus on P2P (Introducing P2P can help you earn higher conversion rate)
4. Send crypto and receive fiat
5. Summary of real-life use cases
6. CTA: download and register through the exclusive link, use the 20% off code, and claim the 5 USD trial voucher

You can save time if you can just read the specific guidelines underneath. Very helpful!

1. Pain Point Introduction

Please start the video by mentioning real payment pain points that local users may face, such as:

- Not having a Visa card and being unable to make international payments
- Local bank cards having too many restrictions or online payments often failing
- Needing to pay for subscriptions, shopping, travel, taxes, or daily bills
- Holding crypto but finding it difficult to use it for everyday spending
- Needing to convert crypto into local currency or other fiat currencies

Then naturally introduce RedotPay:

RedotPay helps users use crypto for real-life payments and transfer scenarios.

2. Quick Introduction to RedotPay

RedotPay is a Visa card that allows users to pay directly with crypto both online and offline globally.

It supports:

- Binding to Apple Pay / Google Pay
- Fiat and crypto deposits
- Fiat and crypto withdrawals

Overall, it is very convenient and easy KYC.

3. Registration, Card Activation, Top-up, Card Purchase, and Usage

In the video, please briefly cover the following points. No need to explain every step in too much detail:

- Registering a RedotPay account
- Activating a RedotPay card
- Top-up methods
- Purchasing the card
- Using the card for payments

Important notes:

- Please protect your privacy during the screen recording. Do not show full card numbers, verification codes, email addresses, phone numbers, wallet addresses, transaction hashes, or any other sensitive information.
- **Please make sure to mention the P2P feature inside the RedotPay App.**

- P2P is a very important part for improving card activation rates, because many users need to know how to top up more easily before they can activate and use the card.

Suggested key message:

If you are not sure how to top up, you can use the P2P feature inside the RedotPay App. It makes card activation and future usage much easier.

4. Send Crypto and Receive Fiat

Please showcase RedotPay's crypto-to-fiat feature.

Please cover:

- Users can send crypto
- The recipient can receive fiat currency
- Multiple fiat currencies are supported, such as PKR / USD / EUR, etc.
- More than 10 fiat currencies are supported
- You may briefly mention the current 0-fee campaign, if applicable

Key message:

This feature is useful for users who need to convert crypto into local currency or make cross-border transfers.

5. Summary of Use Cases

Please briefly summarize what RedotPay is suitable for:

- Users who do not have a Visa card but need international payments
 - Users who want to spend crypto in daily life
 - Users who need Apple Pay / Google Pay
 - Users who need to pay for online shopping or subscriptions
 - Users who need to convert crypto into local fiat currency
 - Users who need fiat or crypto deposits and withdrawals
 - Users who need a more flexible cross-border payment solution
-

6. Call to Action

At the end of the video, please clearly encourage viewers to register and download RedotPay:

- Download RedotPay through the exclusive link in the video description / pinned comment
- Use the influencer's **20% off discount code**
- New users can receive a **5 USD coupon** after registration
- Complete registration, top up, and activate the RedotPay card
- Try online and offline payments, Apple Pay / Google Pay binding, and the crypto-to-fiat feature

Suggested CTA script:

If you want to try RedotPay, click my exclusive link below to download and register. Use my 20% off discount code to save more when activating your card. New users can also get a 5 USD trial coupon after registration. Once you register and top up, you can activate your RedotPay card and start using it for online and offline payments, Apple Pay / Google Pay, and crypto-to-fiat transfers.
