

June Creator Challenge

RedotPay Creator Partnership Brief June 2026 | Rewards up to 1,200 USD

This campaign is a creator partnership for June, offering partners up to **1,200 USD in rewards**. The goal is for creators to explain RedotPay's real use cases, highlighting how it solves problems and why it's useful. Content should focus on real scenarios, clear pain points, and practical solutions to improve referral registrations and user activations, ultimately enhancing referral earnings.

Reward Mechanism

Tiered reward structure based on valid new user activations:

Valid Activations	Reward (USD)
10	50
30	100
100	300
200	600
300	900
400	1,200

Rewards are calculated based on valid card activations from new users who register through a unique referral link and activate their card. The campaign runs throughout June, and rewards will be distributed within seven working days after it ends. It is crucial to ensure referral links are clearly visible (post caption, video description, comments, or mentioned in the video).

Content Strategies for Effective Promotion

These strategies are developed through long-term communication with content creators and data analysis.

Prioritize Platforms

Focus on platforms such as YouTube, TikTok, Instagram, Facebook, Telegram, and WhatsApp.

Content Angles: Problem, Solution, Demonstration

Instead of just introducing product features, start from real user pain points. Examples include foreign exchange restrictions, cross-border payments, inability to pay for overseas websites or international subscriptions, and using crypto assets for real-life spending.

Follow a structure of problem, solution, and demonstration:

- Introduce a common payment problem.
- Explain how RedotPay solves it.
- Demonstrate the actual use case or user journey.

Simple Structure for Conversion Improvement

- **What is RedotPay?** Briefly introduce it as a payment tool for spending crypto assets conveniently online and offline with global acceptance.
- **Why use RedotPay?** Use real-life scenarios like travel spending, cross-border shopping, overseas subscriptions, and daily card spending. Content closer to user needs will better convey RedotPay's value.
- **Call to Action:** Clearly guide your audience to register through your referral link. Place the link in the post caption, video description, and comments, ensuring it appears more than once.

Practical Content Tips

These tips aim to make content easier to understand, searchable, and more likely to convert.

Tip 1: Create Content Around User Problems

Instead of focusing solely on product reviews or tutorials, identify user problems RedotPay can solve. Users often search for solutions to their problems, not just product names. For example, instead of "RedotPay review," consider "How to pay ChatGPT with crypto, no credit card" or "Best way to pay for Facebook ads with crypto." This approach makes content feel more useful and less like an advertisement.

Tip 2: One Product, Multiple Content Angles

RedotPay can solve various problems for different audiences. Tailor your content based on your audience's interests:

- **AI Tools Audience:** "How to pay ChatGPT with crypto," "How I pay for AI tools with USDT."
- **Online Business / Marketing Audience:** "How to pay for Facebook Ads with crypto," "My crypto payment setup for online ads."
- **Daily Spending / Travel Audience:** "How to use USDT like cash," "Using crypto for daily payments."

Tip 3: Utilize Title Templates

Use the formula: **Problem or Solution + Location + Year** for clear, searchable, and relevant titles. Examples: "How to pay ChatGPT with crypto in India 2026," "Best crypto card for AI tools in Brazil 2026." This helps with SEO and targets specific user searches.

Product Updates in June

These updates provide new topics for content creation and showcase RedotPay's growing strengths.

New Membership Program: RedotPay Pro

RedotPay Pro is a membership program for crypto card users designed to offer more real-life value from everyday spending. It has two plans:

- **Monthly Plan (12.9 USD/month):** Includes a free virtual card with 10 USDT and 3% cashback on Apple Pay and Google Pay spending (up to 18 USD/month).
- **Annual Plan (129 USD/year):** Recommended for its stronger value. Members receive a free physical card (worth 100 USDT), 3% cashback on Apple Pay and Google Pay spending (up to 18

USD/month), 1,000 USD/month in ATM fee-free withdrawals, and an extra 1% APY on earn balance. The annual plan is also cheaper than 12 monthly payments, saving users 25 USD.

When creating content, explain that RedotPay Pro helps users get more value from their existing activities, such as using Apple Pay/Google Pay or withdrawing cash.

World Cup-Themed Card Design

To celebrate the upcoming World Cup, RedotPay will offer five different World Cup-themed card designs. This presents a great content opportunity. Connect the World Cup theme with use cases like online shopping for jerseys, purchasing sports merchandise, subscribing to streaming platforms, or watching matches.

Conclusion

Thank you for your continued support and participation. This month offers attractive campaigns and significant product updates. Choose the best content angles for your audience and clearly communicate RedotPay's user value. Support is available for campaign rules, product details, and content materials. We aim for strong results in June.
